## Citro<sub>2</sub>X

### **Oxygenated Restroom Cleaner and Deodorizer**

#### **Restores grouted floors and walls**

With a single application Citro<sub>2</sub>X can undo years of neglect. It is fast acting blend of natural citric acid, hydrogen peroxide and premium surfactants go to work in minutes to dissolve mineral deposits, foam away soap scum and lift embedded grime from grout lines. Even stubborn mildew stains are no match for Citro<sub>2</sub>X. Just apply with mop and bucket, low pressure sprayer or foamer and watch Citro<sub>2</sub>X foaming action loosen unsightly film to be easily rinsed away, restoring tile and grout to a bright, like new appearance.

#### **Great for Routine Maintenance**

Whether it is a new facility or one we have just made look new with a thorough cleaning, maintaining that fresh look and pleasant smell is a breeze with Citro<sub>2</sub>X. In fact, in many cases it is the only restroom cleaner you'll need. Diluted with four parts water, Citro<sub>2</sub>X is a safe, non-fuming bowl cleaner capable of handling light rust and mineral deposits. At 1 or 2 ounces per gallon of water, it makes a versatile spray and wipe cleaner for sinks, vanity tops, shower walls and modesty panels. And nothing keeps quarry and ceramic tile floors looking better than regular mopping with Citro<sub>2</sub>X. As an added bonus, Citro<sub>2</sub>X fresh aroma and the natural oxidizing power of peroxide work to eliminate malodors and leave a pleasant, lingering fragrance.

#### **User Friendly ...**

#### **Ecologically Preferable**

As part of our Harmony line of products, Citro<sub>2</sub>X is formulated to meet the exacting performance standards of cleaning professionals without compromise to the health and safety of the user or unnecessary negative environmental impact. Citro<sub>2</sub>X contains no carcinogens or teratogens. Diluted solutions carry a pH similar to apple juice or cola. It is phosphate and chelate free, contains no V.O.C.s, glycol ethers, petroleum solvents or phenols. All surfactants used in Citro<sub>2</sub>X are classified as biodegradable.

## Citro<sub>2</sub>X

### **Oxygenated Restroom Cleaner and Deodorizer**

#### Benefits

**Super concentrated ....** High level of active ingredients provides extra power for difficult jobs. Requires less concentrate per gallon for routine tasks. Low use cost.

**Peroxide Activated ....** Contains 5¼% active peroxide ... 25% more than most competitive products. Removes mildew stains and discoloration from grout lines without corrosive fumes associated with chlorine. Oxidizing action neutralizes urine odors around toilets and urinals.

**Versatile ....** One product cleans and deodorizes toilets, urinals, sinks, fixtures, shower areas and grouted floors. Reduces product inventory. Simplifies training.

**Eco Friendly ....** Formulated with naturally derived citric acid and biodegradable surfactants. Contains no phosphates, chelates, nonylphenols or petroleum distillates.

**User Friendly ....** Replaces dangerous fuming acids. Moderate pH at use solutions. Safer to store, handle and apply.

#### Directions: General

Wayne Citro<sub>2</sub>X is supplied as a super concentrate and must be diluted before use. For best results a mechanical proportioner is suggested. Do not use on marble, natural stone or other nonacid resistant surfaces. Use only plastic (not metal) applicators. Never mix Citro<sub>2</sub>X with other cleaners.

#### **Directions: Applications**

**Toilet Bowls and Urinals:** Use 48 oz. Citro<sub>2</sub>X per gallon of water. Apply 1-2 ounces to swab mop and clean inside of fixture starting under the flush ring. Flush before returning to service. To clean seat, brightwork and exterior, spray evenly over surface and wipe dry with paper towel or disposable wiper.

**Restoration Cleaning of Ceramic or Quarry Tile Floors and Walls:** Use 48 ounces Citro<sub>2</sub>X per gallon of water. Apply with a plastic pump-up sprayer adjusted to a coarse spray or foam applicator. Wet surface evenly and keep wet 5-10 minutes depending on conditions. Scrub discolored grout lines with a stiff bristle brush. Remove dirty solution with wet vac or clean mop and rinse thoroughly.

**Routine Restroom Cleaning of Ceramic, Fiberglass, Stainless, Chrome, Laminate, Porcelain and Quarry Tile:** Dilute 1-2 ounces per gallon of water. Apply with hand sprayer or pump-up sprayer adjusted for a coarse spray or mop and bucket. Apply liberally over surface to be cleaned. Allow to remain wet for 1-2 minutes. Remove dirty solution with wiper or clean wet mop.
