

# The Lemon Works

## Pot and Pan Detergent Institutional Formula

The Lemon Works is formulated to meet the highest standards of quality, performance, safety and economy in a hand warewashing compound. It is a highly concentrated detergent complex blended to meet the exacting requirements of high volume restaurants, commercial and institutional cafeterias, meat departments and bakeries. The Lemon Works has excellent hard water tolerance. It produces dense and long lasting suds under difficult conditions.

### Effective

The Lemon Works quickly penetrates and removes encrusted grease, cooking oils, baked-on foods, stains and lipstick from pots, pans, cooking utensils, meat saws, dishes, plates and glassware ... and continues to keep on working! Due to its exceptional soil load capacity, grease and oils are suspended harmlessly in the detergent solution to be easily rinsed away. Plus, The Lemon Works rinses off so freely that even fine crystal will air dry without unsightly spots, streaks or film.

### Gentle

The Lemon Works is formulated with the comfort of the user in mind. It is safe and mild. Its cleaning effectiveness is achieved by careful selection and blending of only the highest quality raw materials in high concentration. The Lemon Works contains no free alkali, caustics or solvents to dry or redden even sensitive skin. Its neutral pH and fresh lemon fragrance makes it as gentle and pleasant as the finest castile body soaps.

### Economical

Rich, full bodied The Lemon Works delivers unmatched economy through its concentration. A single case yields over 1500 gallons of working solution. Its stable suds resist breakdown from greasy soil, providing visual proof that The Lemon Works stays on the job long after other products have reached their load capacity and have been flushed down the drain.

For maximum economy, the use of a mechanical proportioning device is suggested. A faucet or a wall mounted unit is easily installed. With a push of the button a precise amount of The Lemon Works is added to the water flow. Waste is virtually eliminated.

The Lemon Works is available in one gallon containers, packed 6 per case. 5 gallon pails and 55 gallon drums are also provided for the larger volume user.

## Companion Products for Food Service

**Buster Oven and Grill Cleaner** - The product designed to remove stubborn burnt-on food stuffs without leaving a film.

**Convert Hard Surface Renovator/Conditioner** - Trapped grease, soap, detergent and other soils are not only a maintenance problem but a safety hazard as well. This product is intended for periodic renovation of quarry tile, terrazzo, porcelain, slate and stone to restore their natural anti-slip characteristics. The perfect solution for problem film.

**DeLime Doctor Lime Scale Solvent** - A powerful, concentrated synergistic blend of chemicals made to remove scale in dishmachines, steam tables, ice machines, coffee pots, on glassware, drain boards and water fountains.

**Drain-Tane Penetrating Drain Opener and Maintainer** - A nonacid, non-fuming liquid built to dissolve sludge accumulations into a water soluble form. Drain problems just rinse way.

**Fatso Floor Cleaner** - A concentrated floor cleaner that cuts vegetable oils and animal fats. Its low foaming formulation provides the ideal product for regular maintenance of kitchen floors.

**Quat 10 Disinfectant/Sanitizer/Deodorizer** - A concentrated, odorless product that dilutes for specific jobs. Used for sanitizing dishes, glassware, silverware and cooking utensils. Both economical and versatile, the product for a healthier environment.

**Short Order Floor Cleaner Concentrate** - A heavy duty detergent for food service operations to use as a daily floor cleaner. Makes short work of cooking oils, animal fats, dirt, proteins and food residues. Low foaming, free rinsing and fast drying, it's "made for mopping".

**Vision Glass and Hard Surface Cleaner** - A difference you can see. Fortified with ammonia, Vision is formulated to meet industrial, institutional and commercial requirements. Concentrated for economy, Vision works for you at a fraction of the cost of conventional ready-to-use products.
