

Harmony Floor Care Products

Our Harmony line introduces
a trilogy of new environmentally friendly
floor care products.

Bright Right
Zinc Free Floor Finish

NRC-64
Concentrated No Rinse Detergent

Power Lifter
Low Odor Floor Stripper

As a manufacturer of chemical products, we, at Wayne Concept, take our responsibilities to protect human health and the environment seriously.

Each product is developed to do the best job using the most environmentally safe formula.

These three products are job matched to solve your floor care problems and are backed by knowledgeable Wayne representatives who provide all necessary consumer teaching and safety information.

Serving the maintenance community since 1933

Harmony

**Environmentally Preferable Products ...
that work!**

**Our Harmony line introduces a new floor care product
with self-cross-linking technology.**

Bright Right Zinc Free Floor Finish

- Low odor** **High gloss** **Easy application**
- Meets Federal V.O.C. standards** **Self-sealing**

This new generation floor coating addresses all pertinent environmental problems while delivering all the performance expected from Wayne products.

Bright Right is a modified acrylic finish that contains no zinc or other heavy metal components. Bright Right is designed without alkylphenol ethoxylates, dibutyl phthalate, ammonia, formaldehyde or other environmentally toxic preservatives. It complies with national V.O.C. standards.

Harmony Bright Right is self-sealing and builds a durable, high gloss coating without the use of undercoat sealers. It applies without fuss and dries quickly. It is formulated for use as a protective and maintenance coating for all resistant floors in commercial, institutional and industrial facilities. Its low odor characteristic makes it a product of choice for hospitals, hospices, nursing homes and other personal care facilities.

Harmony Bright Right comes ready-to-use and is packaged in 1 and 5 gallon recyclable containers.

Product Specifications

Specific Gravity	1.028
Density	8.56#/gallon
Non-volatile Solids	20%
Color (Dried Film)	Water clear
Odor	Low
Coverage	2,000-3,000 sq. ft./gallon
Dry/Recoat Time	30-40 minutes
Detergent Resistance (ASTM D3207)	Exceeds
Removability (ASTM D1792)	Exceeds
Soil Resistance (ASTM D3206)	Excellent
Slip Resistance (ASTM D2047)	>0.50 COF
Product #	J11BRF1, J11BRF5
VOC content	207g/l total, 166 g/l (exempt method)

NRC-64 Concentrated No Rinse Detergent

- Neutral pH** **Low foaming** **Nontoxic**
- Contains no hazardous ingredients**

NRC-64 is a mopping detergent formulated to be ecologically friendly while performing above competing standards.

Harmony NRC-64 contains no alkylphenol or nonylphenol ethoxylates, phosphates, silicates, caustics or glycol ether solvents. The surfactants used in production of NRC-64 are biodegradable and will breakdown into minerals, water and carbon dioxide. It is nonflammable and requires no special storage. NRC-64 generates no V.O.C.'s and has no SARA 313 hazardous ingredients or suspected carcinogens or tetragens.

NRC-64 is a concentrated, neutral pH cleaner designed for general purpose hard surface cleaning and the routine maintenance of highly polished or sealed floors. With its fast action, low foam, non-streak formula, NRC-64 is the perfect product for use in manual spray and wipe spot cleaning, routine damp mopping or automatic scrubber applications. To conserve energy, it is recommended Harmony NRC-64 be diluted with cool water.

Harmony NRC-64 should be diluted at a 2 oz. per gallon (64-1) ratio for general use and is packed in 1 and 5 gallon recyclable containers.

Product Specifications

Specific Gravity	1.01
Density	8.36#/gallon
pH Concentrate	7.5 - 8.0
pH Use Solution	7.0
Color	Green
Fragrance	None
Detergency	Excellent
Foaming	Low to medium
Rinsability	Complete
Freeze/Thaw (ASTM D3209)	Passes
Stability	1 year minimum
Product #	J11NRC1, J11NRC5

Power Lifter Low Odor Floor Stripper

- Low foaming**
- Low odor**
- Non-corrosive**
- Nontoxic**
- Noncaustic**
- Leaves no alkaline residue**

Power Lifter is formulated to have reduced environmental impact without compromise in performance.

Harmony Power Lifter is built without phosphates, EDTA, caustics, silicates, alkylphenol ethoxylates, artificial dyes or fragrances. Neither does it contain 2-butyoxyethanol or ammonia. Power Lifter is non-regulated and non-corrosive per D.O.T.

Power Lifter is designed to remove Harmony Bright Right and other metal free cross-linked floor finishes. It's fast action formula dissolves multiple coats without harsh alkalis or strong ammonia fumes. It is recommended for use in commercial, institutional and industrial facilities. Its low odor characteristic makes it the preferred selection for hospitals, hospices, nursing homes and other personal care facilities.

Harmony Power Lifter is supplied as a concentrate and must be diluted with water for use. A solution of 1 part Power Lifter to 5 parts water (25 oz. per gallon) is recommended. Power Lifter is packed in 1 and 5 gallon recyclable containers.

Product Specifications

Specific Gravity	1.039
Density	8.645#/gallon
pH Concentrate	10.0 - 10.5
pH Use Solution	9.0 - 9.5
Color	Water clear
Odor	Low
Rinsability	Complete
Stability	1 year minimum
Product #	J11PL1, J11PL5
