EMERGENCY
INFOTRAC 800-535-5053

SAFETY DATA SHEET

SECTION 1 - IDENTIFICATION

Product Name..... NRC-64	Cas#: N/A, Preparation
SDS# 861A	
Chemical Name..... N/A, Preparation	
Chemical Family..... Detergent Solution	Date Prepared: 1/14/14
Hazard Classification.....N/A, Preparation	Date Revised: 05/25/2015
Product Use.....Floor Cleaner	

SECTION 2 – HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW

Color: clear, colorless
Physical State: liquid
Odor: mild, detergent aroma
GHS Classifications: Acute Toxicity (oral); Category 4
 Acute Toxicity (dermal); Category 5
 Skin Corrosion/Irritation; Category 3
 Serious Eye Damage/Irritation; Category 2B

POTENTIAL HEALTH EFFECTS

Primary routes of exposure: Skin contact and inhalation.
Signs and symptoms of acute exposure: The product, in the form supplied, is not anticipated to produce significant adverse human health effects.
Acute Eye: Slightly irritating. (data for solvent component)
Acute Skin: Prolonged or repeated contact can cause moderate irritation, defatting, dermatitis.
Acute Inhalation: Excessive inhalation of vapors can cause nasal and respiratory irritation.
Acute Ingestion: Can cause gastrointestinal irritation, nausea, vomiting, and diarrhea.
Remarks: Handle in accordance with good industrial hygiene and safety practice. Dried product may stick to the skin causing irritation upon removal.

SECTION 3 – COMPOSITION/INFORMATION ON INGREDIENTS

INGREDIENT	CAS NUMBER	INGREDIENT % RANGE
Sodium Citrate	68-04-2	1 - 5%
Alcohols, C9-11 branched and linear ethoxylate	68439-46-3	1 – 5%

SECTION 4 – FIRST AID MEASURES

Eyes: Immediately flush eye(s) with plenty of water.
Skin: In case of contact, Immediately flush skin with plenty of water. Remove material from clothing. Wash clothing before reuse. Thoroughly clean shoes before reuse.
Ingestion: If swallowed, DO NOT induce vomiting. Get medical attention. Never give anything by mouth to an unconscious person.
Inhalation: If inhaled, remove victim to fresh air.

SECTION 5 – FIRE FIGHTING MEASURES

FIRE HAZARD DATA:

Flash Point and Method: Not Determined

Flammability Limits (vol/vol%): LOWER: No data available UPPER: No data available

Extinguishing Media (suitable): Carbon dioxide (CO₂), Dry chemical, Foam, water spray

Protective Equipment: Fire fighters and others who may be exposed to products of combustion should wear full fire fighting turn out gear (full Bunker Gear) and self-contained breathing apparatus (pressure demand/NIOSH approved or equivalent).

Further Firefighting Advice: Fire fighting equipment should be thoroughly decontaminated after use.

Fire and Explosion Hazards: When burned, the following hazardous products of combustion can occur:

Carbon oxides

Hazardous organic compounds

SECTION 6 – ACCIDENTAL RELEASE MEASURES

In case of spill or leak: Prevent further leakage or spillage if you can do so without risk. Ventilate the area. Avoid generation of vapors. Contain and collect spillage with non-combustible absorbent material such as clean sand, earth, diatomaceous earth or non-acidic clay and place into suitable properly labeled containers for prompt disposal. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Consult a regulatory specialist to determine appropriate state or local reporting requirements, for assistance in waste characterization and/or hazardous waste disposal and other requirements listed in pertinent environmental permits.

SECTION 7 – HANDLING AND STORAGE

Handling: Handle in accordance with good industrial hygiene and safety practices. These practices include avoiding unnecessary exposure and removal of material from eyes, skin, and clothing.

Storage: Keep in a dry, cool place. This material is not hazardous under normal storage conditions; however, material should be stored in closed containers, in a secure area to prevent container damage and subsequent spillage. Store in upright position only. Keep container closed when not in use.

Storage Stability: Stable under normal conditions. May coagulate if frozen at 0°C (32°F). Material may develop bacteria odor on long term storage.

Storage Incompatibility - General:

Store separate from: Strong bases, Strong oxidizing agents, Strong acids

May cause coagulation: Multivalent metal salts

Temperature tolerance – Do not store below: - 34 °F (1 °C)

Temperature tolerance – Do not store above: 100 °F (38 °C)

SECTION 8 – EXPOSURES CONTROLS/PERSONAL PROTECTION

Airborne Exposure Guidelines:

Remarks: Listed

Only those components with exposure limits are printed in this section. Limits with skin contact designation above have skin contact effect. Air sampling alone is insufficient to accurately quantitate exposure. Measures to prevent significant cutaneous absorption may be required. Limits with a sensitizer designation above mean that exposure to this material may cause allergic reactions.

Engineering Controls: Investigate engineering techniques to reduce exposures below airborne exposure limits or to otherwise reduce exposures. Provide ventilation if necessary to minimize exposures or to control exposure levels to below airborne exposure limits (if applicable see above). If practical, use local mechanical exhaust ventilation at sources of air contamination such as open process equipment.

Respiratory Protection: Avoid breathing vapor or mist. Where airborne exposure is likely or airborne exposure limits are exceeded (if applicable, see above), use NIOSH approved respiratory protection equipment appropriate to the material and/or its components (full facepiece recommended). Consult respirator manufacturer to determine appropriate type equipment for a given application. Observe respirator use limitations specified by NIOSH or the manufacturer. For emergency and other conditions where there may be a potential for significant exposure or where exposure limit may be significantly exceeded, use an approved full face positive-pressure, self-contained breathing apparatus or positive-pressure airline with auxiliary self-contained air supply. Respiratory protection programs must comply with 29 CFR § 1910.134.

Eye/Face Protection: Use good industrial practice to avoid eye contact.

Skin Protection: Minimize skin contamination by following good industrial hygiene practice. When handling this material, gloves

of the following type(s) should be worn: Neoprene, nitrile, Polyvinylchloride, Natural Rubber, butyl-rubber, Chlorinated polyethylene, polyethylene (PE), ethyl vinyl alcohol laminate (EVAL).

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Color: clear, colorless	Vapor Density: No data available
Physical State: liquid	Vapor Pressure: No data available
Odor: mild, detergent aroma	Boiling Point: 212 °F (100 °C) (data for Water (7732-18-5))
pH: Not applicable	Freezing Point: 32 °F (0 °C) (data for Water (7732-18-5))
Density: calculated 8.49 g/cm ³	Solubility in water: miscible
Specific Gravity, g/ml: calculated 1.02 Water=1 (liquid)	VOC: 135 g/L (1.13 lb/gal)

SECTION 10 – STABILITY AND REACTIVITY

Stability: This material is chemically stable under normal and anticipated storage, handling and processing conditions.

Stability-Conditions to avoid: See HANDLING AND STORAGE section of this MSDS for specified conditions. See Hazardous Decomposition Products below.

Materials to Avoid: Strong acids, Strong bases, Strong oxidizing agents
May cause coagulation: Multivalent metal salts

Hazardous Decomposition Products: Thermal decomposition giving flammable and toxic products : Hazardous organic compounds, Carbon oxides

Hazardous Polymerization: Hazardous polymerization does not occur.

SECTION 11 – TOXICOLOGICAL INFORMATION

Data for this material and/or its components are summarized below.

Other information

The information presented is from representative materials with this Chemical Abstract Service (CAS) Registry number. The results vary depending on the size and composition of the test substance. Effects due to processing releases or residual monomer: Possible cross sensitization with other acrylates and methacrylates

Repeated dose toxicity

Subchronic oral administration to rat / affected organ(s): liver, heart / signs: changes in organ weights, changes in organ structure or function, blood chemistry changes, changes in body weight

Repeated dermal administration to rabbit / affected organ(s): skin / signs: Irritation / No adverse systemic effects reported.

Genotoxicity

Assessment in Vitro:

No genetic changes were observed in laboratory tests using: bacteria, animal cells

Genotoxicity

Assessment in Vivo:

No genetic changes were observed in a laboratory test using: mice

Developmental toxicity

Exposure during pregnancy. oral (rat) / No birth defects were observed.

Human experience

Skin contact:

Skin: No skin allergy was observed. (studied using human volunteers)

SECTION 12 – ECOLOGICAL INFORMATION

Chemical Fate and Pathway

Data on this material and/or its components are summarized below.

SECTION 13 – DISPOSAL CONSIDERATIONS

Waste disposal:

Disposal via incineration is recommended. Dispose of in accordance with federal, state and local regulations. Consult a regulatory specialist to determine appropriate state or local reporting requirements, for assistance in waste characterization and/or hazardous waste disposal and other requirements listed in pertinent environmental permits. Note: Chemical additions to, processing of, or otherwise altering this material may make this waste management information incomplete, inaccurate, or otherwise inappropriate. Furthermore, state and local waste disposal requirements may be more restrictive or otherwise different from federal laws and regulations.

SECTION 14 – TRANSPORT INFORMATION

US Department of Transportation (DOT): not regulated
 International Maritime Dangerous Goods Code (IMDG): not regulated

SECTION 15 – REGULATORY INFORMATION

US. Toxic Substances Control Act	TSCA	The components of this product are all on the TSCA Inventory.
Canada. Canadian Environmental Protection Act (CEPA). Domestic Substances List (DSL). (Can. Gaz. Part II, Vol. 144)	DSL	This product contains one or several components that are not on the Canadian DSL nor NDSL lists.

United States – Federal Regulations

SARA Title III – Section 302 Extremely Hazardous Chemicals:

The components in this product are either not SARA Section 302 regulated or regulated but present in negligible concentrations.

SARA Title III - Section 311/312 Hazard Categories:

No SARA Hazards

SARA Title III – Section 313 Toxic Chemicals:

<u>Chemical Name</u>	<u>Cas-No.</u>	<u>De minimis Concentration</u>	<u>Reportable Threshold:</u>
N/A			

OSHA Regulated carcinogens (NTP, IARC, OSHA Listed):

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

IARC:

No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

OSHA:

No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

United States – State Regulations

New Jersey Right to Know

Chemical Name

CAS-No.

N/A

Pennsylvania Right to Know – Environmentally Hazardous Substance(s)

Chemical Name

CAS-No.

N/A

California Prop. 65

This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive defects.

SECTION 16 – OTHER INFORMATION

HMIS Rating

HEALTH	1
FLAMMABILITY	0
REACTIVITY	0
PROTECTIVE EQUIPMENT	B

KEY: 4=Severe, 3=Serious, 2=Moderate, 1=Slight, 0=Minimal

Protection=B (goggles and gloves)

HMIS – Hazardous Materials Identification System
