

SHORT ORDER

Floor Cleaner Concentrate

Short Order is the high performance mop detergent built for the food service industry. Formulated of ingredients selected for their activity on vegetable oils, blood, protein and animal fats, Short Order makes short work of daily mopping chores. It quickly lifts soil from quarry tile, terrazzo or resilient tile floors with a minimum of scrubbing. With regular use, even problem areas like grout lines and baseboards stay beautifully clean and free of discoloration. Low foam cuts mop and recovery time while reducing mop marks and streaks.

Light pleasant fragrance

Cleans and degreases

Extra concentration

Free rinsing

Economical

Fast acting

Low foam

WAYNE SHORT ORDER IS MADE FOR MOPPING.

General Cleaning Directions	Application Directions	
	Public and Service Areas	Kitchen and Storage Areas
<ol style="list-style-type: none">1. Public areas must be closed to traffic during cleaning.2. Start cleaning with a clean mop, bucket and wringer.3. Always dilute cleaner according to directions. Too much detergent in the bucket will cause too many suds on the floor and make solution recovery more difficult and cause streaking.4. Change mop water as it becomes loaded with soil.5. Pick up dirty water thoroughly and allow floor to dry completely before reopening public areas to traffic.6. Always empty and rinse equipment after use. Return to storage area. Hang mop to dry.	<ol style="list-style-type: none">1. Use 1-2 ounces Wayne Short Order per gallon of warm water.2. Mop a thin film of solution over area to be cleaned.3. Let stand several minutes.4. Wring mop and pick-up dirty solution.5. Under most conditions, rinsing should not be necessary. However, if area was extremely soiled, a clear water rinse is suggested.	<ol style="list-style-type: none">1. Use 4-6 ounces Wayne Short Order per gallon of hot water.2. Mop solution liberally over area to be cleaned.3. Let stand wet for several minutes.4. Scrub areas around fryers or grills with a deck brush as required.5. Pick-up dirty solution.6. Rinse thoroughly with clean water.

Companion Products for Food Service

Buster Oven & Grill Cleaner - The product designed to remove stubborn burnt on food stuffs without leaving a film.

Convert Hard Surface Renovator/Conditioner - Trapped grease, soap, detergent and other soils are not only a maintenance problem but a safety hazard as well. This product is intended for periodic removal of quarry tile, terrazzo, porcelain, slate and stone to restore their natural anti-slip characteristics. The perfect solution for problem film.

DeLime Doctor Lime Scale Solvent - A powerful, concentrated synergistic blend of chemicals made to remove scale in dish-machines, steam tables, ice machines and coffee pots and on glassware, drain boards and water fountains.

Drain-Tane Penetrating Drain Opener & Maintainer - A non-acid, non-fuming liquid built to dissolve sludge accumulations into a water soluble form. Drain problems just rinse away.

Fatso Floor Cleaner - A concentrated floor cleaner that cuts vegetable oils and animal fats. Its low foaming formulation provides the ideal product for regular maintenance of kitchen floors.

Quat 10 Disinfectant/Sanitizer/Deodorizer - A concentrated, odorless product that dilutes for specific jobs. Used for sanitizing dishes, glass ware, silverware and cooking utensils. Both economical and versatile, the product for a healthier environment.

The Best Hand Dishwash/Pot and Pan Detergent - A pH balanced detergent that is gentle to your hands while tough on all food soils. Compounded of high concentrations of cosmetic quality ingredients. You can clean more dishes per charge - without changing solutions. A true friend of the budget conscious consumer! Don't settle for less than The Best!
