

Wayne®

NuClinger II Thixotropic

Bowl Cleaner

Disinfects, Cleans, Deodorizes, Virucidal

Simply the Best!

- ✓ **Thicker viscosity ...** More detergent thickeners allow NuClinger II to cling to vertical surfaces until rinsed or mopped away.
- ✓ **Better cleaning ...** Doesn't run off before the job is done. Longer exposure maximizes descaling ability of low acid formula.
- ✓ **Improved wetting ...** Solution spreads and coats surfaces for thorough coverage.
- ✓ **Hospital Grade disinfectant ...** Broad spectrum effectiveness on gram negative and gram positive bacteria. Even kills resistant staph strains MRSA, VISA, and CA-MRSA.
- ✓ **Virucidal ...** Kills HIV-1, Hepatitis A, Influenza A viruses.
- ✓ **New darker color ...** Provides visible evidence of application. Easier to use.
- ✓ **Pleasant to use ...** The best fragrance at the limit the law allows.

Wayne NuClinger II has been our top of the line, 9% hydrogen chloride bowl cleaner for over 30 years. When it was introduced it was one of the first clinging bowl cleaners in the country. It is the most popular product of its kind we have ever sold. But, even classics eventually need an upgrade.

New developments in detergency technology and a new generation of quaternary germicides make possible for us to offer NuClinger II ... a better, thicker product with broader bactericidal and virucidal efficacy.

A truly superior product ... offered at a competitive price.

Wayne® NuClinger II Thixotropic Bowl Cleanse

Product Placement

NuClinger II is recommended as a one step cleaner, disinfectant and deodorant for toilet bowls and urinals in light to medium hard water conditions.

Advantages

- Thickened viscosity allows clinging to vertical surfaces improved wetting
- Hospital grade disinfectant ... powerful bactericidal and virucidal efficacy
- Cleans the stains you see and the germs you can't.
- Low acid no fumes
- Pleasant cherry fragrance

Bacterial and Virucidal Efficacy Registered Label Claims

NuClinger II is bactericidal according to the AOAC use dilution test method on hard inanimate surfaces in the presence of 5% organic soil with a 10 minute contact time against the following organisms:

- ☑ **Escherichia coli** ☑ **Serratia marcescens**
- ☑ **Enterococcus faecalis**
 (Vancomycin Resistant)
- ☑ **Enterobacteriaceae (extended beta**
- ☑ **Pseudomonas aeruginosa**
- ☑ **Salmonella choleraesuis**
- ☑ **Shigella dysenteriae**
- ☑ **Salmonella typhi**
- ☑ **Staphylococcus aureus**
- ☑ **Staphylococcus aureus - MRSA**
- ☑ **Staphylococcus aureus - VISA**

Virucidal Performance: NuClinger II was evaluated and found to be effective in the presence of 5% organic soil against the following viruses on inanimate hard, nonporous environmental surfaces of toilets and urinals. Treated surfaces must remain wet for 10 minutes. For heavily soiled areas, a preliminary cleaning is required. Effective against:

- ☑ **Hepatitis A virus (HAV)**
- ☑ **Herpes simplex virus type 1**
- ☑ **Herpes simplex virus type 2**
- ☑ **Human Immunodeficiency Virus type 1**
- ☑ **Influenza A Virus** ☑ **Rotavirus**

Specification Data:	
1. Hydrogen Chloride	9.00%
2. Disinfectant E.P.A.	10324-158-49058
3. Deodorizing Ability _ Malodor counteractant	
4. Foaming	High
5. Wetting Ability	Excellent
6. Rinsing	Complete
7. Fragrance	Cherry scent
8. Color	Red
9. Hard Water	Stable
10. Biodegradable	Yes/all surfactants
11. pH	Less than 1.4
12. S.G.	1.04
13. Flash Point	Will not support combustion
14. Corrosion Inhibition	Complete/exceeds federal standards
15. Shelf Life	Stable indefinitely

Serving the maintenance community since 1933
