

Wayne[®]

SD #1

Spray Cleaner/Degreaser

PRODUCT ADVANTAGES

SUPERIOR PERFORMANCE ... Powerful blend of synergized detergents, builders, water soluble and citrus solvents. Cuts grease, smoke, crayons, lipstick, rubber marks.

SAVES LABOR ... Works on the most difficult soils in seconds. Wipes dry without streaks, haze or films. Requires no rinsing.

SAFE ... Contains no caustics, silicates, phosphates or butyl cellosolve. Better for the environment ... and the people in it.

VERSATILE ... Safe on all washable surfaces when used as directed. Replaces aerosols and RTU quart packs.

COST EFFECTIVE ... At a 5-1 dilution, SD #1 concentrate will yield a cleaning solution equal or superior to the finest ready-to-use spray cleaners, at a fraction of their cost.

PRODUCT PLACEMENT

Wayne SD #1 is suggested for use as a heavy duty, spray and wipe degreaser for industrial and institutional applications. It is especially recommended for use in manufacturing plants, food service and other high soil areas where the use of a solvent bearing product is indicated.

WASTE NOT SYSTEM

Wayne SD #1 is supplied as a manufacturing concentrate and must be diluted with water before use. To eliminate waste and insure safe handling the use of a controlled proportioning system is recommended. A complete selection of proportioning devices, dispenser cubes, applicator bottles and secondary labels is available through your Wayne representative.

Instant Action

No Rinse, No Streak Formula

**Removes: Oil, Grease,
Smoke Film, Crayons,
Rubber Marks
and Lipstick**
