

T³

Hospital and Institutional Tub - Tile - Toilet One Step Cleaner Disinfectant

Powerful disinfectant action

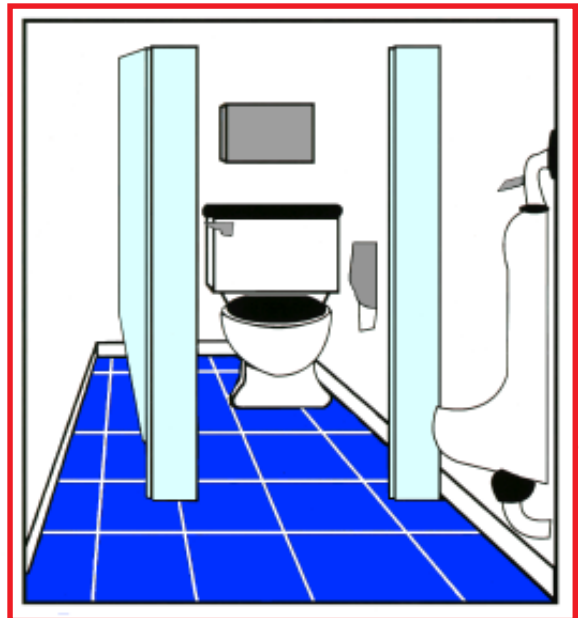

T³ is formulated to meet the demanding criteria required for classification as a hospital grade disinfectant. With four times the active quaternary ammonium germicidal content of most older registrations, T³ delivers a full 5,000 ppm concentration for broad spectrum germicidal activity against both gram negative and gram positive bacteria including staphylococcus aureus, pseudomonas aeruginosa and salmonella choleraesuis. T³ has been evaluated and found effective as a virucide against Herpes Simplex types 1 and 2 and Human Immunodeficiency Virus type 1.

Versatile and Effective cleaner

T³ is the ideal balance of cleaning efficiency and surface safety to keep bathroom fixtures bright, shiny and sanitary. It easily removes calcium and lime deposits, hard water spots, soap scum and body oils without hard scrubbing or abrasive grit. Its thickened formula adheres to vertical surfaces to insure maximum exposure and minimum waste. Use T³ on toilets and urinals, ceramic and plastic wall tiles, stainless drinking fountains and porcelain fixtures.

Safer and Pleasant to use

Many restroom cleaners are made with harsh, fuming acids that can present a health hazard to the user and can damage fixtures. T³ is made with a base of non-fuming phosphoric acid with cationic corrosion inhibitors added to prevent damage to metal parts and trim on flush valves, shower and tub fittings. T³ kills the bacterial that cause restroom odors and leaves a clean, fresh fragrance.

Manufactured by:

Wayne Concept Manufacturing Co., Inc.
Fort Wayne, IN 46825 260-482-8615

T³

**Hospital
and
Institutional
Tub - Tile - Toilet
One Step Cleaner
Disinfectant**

Product Placement

T³ is recommended for use as a daily restroom maintainer for light to medium hard water conditions. Use to clean, disinfect and deodorize toilets, urinals, fixtures, showers, plastic and glazed wall tiles, drinking fountains, chrome and porcelain. Do not use T³ on marble.

Advantages

- 1 Removes rust, lime, calcium, soap film and body oils
- 2 One step cleaner & disinfectant
- 3 Non-fuming contains no hydrochloric acid
- 4 Contains corrosion inhibitors and helps protect bright work
- 5 Pleasant, lingering fragrance

Bacterial and Virucidal Efficacy Registered Label Claims

Wayne T 3 is bactericidal according to the AOAC Use Dilution test method on hard inanimate surfaces, toilets and urinals, modified in the presence of 5% organic soil with a ten minute contact time against the following organisms;

Effective against:

Corynebacterium amoniagenes	Salmonella choleraesuis
Enterobacter aerogenes	Salmonella typhi
Escherichia coli	Serratia marcescens
Klebsiella pneumoniae	Shigella dysenteriae
Proteus mirabilis	Staphylococcus aureus
Pseudomonas aeruginosa	Streptococcus pyogenes

Virucidal* Performance: Wayne T-3 was evaluated and found to be effective in the presence of 5% organic soil against the following viruses on inanimate, hard, nonporous environmental surfaces of toilets and urinals. Treated surfaces must remain wet for 10 minutes. For heavily soiled areas, a preliminary cleaning is required.

Effective Against:

Human Immunodeficiency Virus type 1	
Herpes simplex virus type 2	Herpes simplex virus type 1
