WORLD'S BEST ODOR CONTROL SYSTEM

Continuous fresh scent & odor control

- ✓ Reliable
- 🛡️ Effective
- 💰 Economical
- 🛡️ Safe
- 🌱 Eco-Friendly

Reliable Performance

Oxy-Gen Powered is the only technology that guarantees the delivery of fragrance in the air continuously, consistently and accurately for the entire duration of the cartridge life.

This precise technology is based on a fuel cell technology that is used in the pharmaceutical industry to deliver drugs to human beings and animals.

Oxy-Gen Powered technology is **simple, reliable and cost-effective.**

“Another great feature of the product is the management and reminder system as it alerts when the cartridge needs to be replaced. One less problem to worry about!”

Safe

With **no added solvents** and **no alcohols**, the Oxygen-Pro cartridges contain **100% pure fragrance oil** and are a safe choice for any facility. Since the cartridges are not pressurized containers, they are safe to transport and store.

Eco-Friendly

Unlike aerosols, the Oxygen-Pro system does **not contain any CFCs**, has **no added VOCs or propellants**, no ‘spray and fade effect’ and ‘no noise’.

Oxygen-Pro is a Carbon Footprint approved product that has been independently assessed and verified for emissions and energy consumption, making it a reliable and an eco-friendly product.

Eclipse™ Urinal Screens

Effective Fragrant Odor Control

All Oxygen-Pro Fragrant Odor control Cartridges contains Neutra-lox, our proprietary odor eliminator ingredient that is extremely effective against the smell of urine, feces, body odor, tobacco, pet malodor, kitchen odor, mold and mildew, etc. Unlike other systems that only mask odors, Oxygen-Pro cartridges eliminate odors and release fragrance effectively.

neutra-lox super odor eliminator

With a hint of lemongrass fragrance, this is the ideal choice for areas where high odor elimination is required with Very Low fragrance, just as an indicator.
