

Today ... just being a great cleaner isn't enough!

Industrial Green

Biodegradable Detergent/Degreaser Concentrate

Environmentally correct

- No chlorinated solvents
- No petroleum distillates
- No phosphates
- No SARA 313 listed chemicals

Safer to use

- Non-butyl
- Non-caustic
- Nonflammable
- Non-fuming

Easy disposal

- All biodegradable surfactants
- No nonyl phenols
- Harmless to sewage treatment microorganisms
- pH less than 10 at 1% solution
- Packed in returnable/recyclable containers

Efficient performance

- Fast action on grease, oils, dirt
- Exceptional hard water tolerance
- Low foam
- Highly concentrated

Industrial Green is an advanced formula cleaner/degreaser designed to address all the performance, safety, disposal and ecological considerations that are part of the business of today. Industrial Green cleans like a high performance butyl degreaser ... but contains no butyl. It attacks heavy grease like a caustic cleaner ... but it's not caustic. Industrial Green is nonflammable ... so it is safe to store and noncorrosive ... so it is safe to use. Industrial Green contains no chlorinated solvents to pollute the air or petroleum solvents to contaminate the water. In short, Industrial Green delivers the performance industry wants, the safety industry needs with the ecological responsibility industry demands.
