

NuClinger II Thixotropic

Bowl Cleaner

Cleans - Descales - Deodorizes

Simply the Best!

- ◆ Thicker viscosity
- ◆ Better cleaning
- ◆ Improved wetting
- ◆ Pleasant to use

Wayne NuClinger has been our top of the line, 9% hydrogen chloride bowl cleaner for over 30 years. When we introduced NuClinger, it was one of the first clinging bowl cleaners in the country. It is the most popular product of its kind we have ever sold. But, even classics eventually need an upgrade.

New developments in detergency technology make it possible for us to offer NuClinger II...a better, thicker product at a competitive price.

Product Placement

NuClinger II is recommended as a one step cleaner and deodorant for toilet bowls and urinals in light to medium hard water conditions.

NuClinger II can be used on toilet bowls, urinals, ceramic and plastic tiles, shower walls, stainless steel fountains and other acid resistant surfaces.

Advantages

- ✓ Improved wetting
- ✓ Low acid ... no fumes
- ✓ Pleasant cherry fragrance
- ✓ Thickened viscosity ... clings to vertical surfaces
