

Shine-On N.D.C.

Neutral Disinfectant Cleaner, Fungicide, Virucide*

Kill the germs Not the shine

Our product is a phosphate-free formulation designed to provide effective cleaning, deodorizing and disinfecting in areas where housekeeping is of prime importance in controlling the hazard of cross-contamination on treated surfaces. It is neutral in pH, leaving no dulling film on non-porous surfaces. Shine-On N.D.C. is an economical concentrate, mixing at a dilution of 2 oz. per 1 gallon of up to 400 ppm hard water.

Uses and Application methods

Wayne Shine-On N.D.C. will not harm sealed stone, sealed grout or glazed tile and leaves no grit or soap scum. Non-dulling formula eliminates the time and labor normally required for rinsing of floors. Shine-On N.D.C. eliminates odors, leaving surfaces smelling clean and fresh. Wayne Shine-On N.D.C. can be applied to non-porous surfaces with a sponge, brush, cloth, mop and bucket, auto scrubber, coarse trigger spray device, foaming apparatus, low-pressure sprayer systems or by soaking.
